WILLIAM D. HORNE

Report of Selectmen

To the Voters of the Town of Millbury:

The Selectmen herewith present their report for the year 1931:

New Roads

During the year the highway known as Wheelock Avenue Extension located at East Millbury, was constructed from a survey and specifications made by Engineer John E. Gallagher.

This work was done by the citizens of Millbury, Town Engineer supervised all the work, which was done by Martin J. Roach, Highway Surveyor for the Town of Millbury.

The work of the citizens met the approval of the Selectmen and Engineer and we believe was performed to the satisfaction of the citizens in general.

A Temporary Bridge

was constructed at Stony Brook, Dority Pond, on Wheelock Avenue Extension

Unemployment

An unemployment Committee has been established to help the unemployment survey, citizens of different organizations have been a great help in forming the above committee.

A Voting Precinct

has been established at East Millbury, known as Precinct 2.

Traffic Signals

We are asking for authority from the town to establish traffic signals, for schools, and highways for different parts of the town, as laid out by the State Engineer of the Massachusetts Highway Department.

The co-operation of the heads of the different departments with the Selectmen was generous and our relations cordial for we express our sincere appreciation.

FRED H. VULTERS,
ALCIDE MAYOTTE,
PATRICK J. GIBSON.

Report of Auditor

Millbury, Mass., January 25, 1932.

I herewith respectfully submit my report of the cash receipts and expenditures for the year ending December 31, 1931.

Yours respectfully,

JAMES J. CASSIDY,

Auditor.

Respectfully submitted,

JOHN J. MULHANE,

Treasurer.

Report of Board of Public Welfare

To the Selectmen of the Town of Millbury:

For details of the expenditures of this department, see Auditor's Report.

The report of the Charlton Home Farm Association will be found on another page of this book.

The lack of employment in many lines of labor has caused more than the usual requests for aid and from a great number who never required any aid in the past.

The last financial town meeting voted the sum of \$30,000 to carry on the work of the Board of Public Welfare for the year 1931. This sum would have been sufficient to take care of our own town, but so many families from other towns required aid that we had a small overdraft.

Unless there is a material increase in the employment of labor in this part of the State we shall require an appropriation of \$35,000 at the coming Town Meeting.

We believe this amount will be sufficient to carry on the work of the Board of Public Welfare for the year and feel that it will not be necessary to ask for an additional amount during the year.

ALBERT F. DESPARD, *Chairman*
R. M. FOWLER, *Clerk*,
MYLES SCANNELL.

Report of the Charlton Home Farm Association

Ashburnham, Brookfield, Charlton, East Brookfield, Hardwick, Holden, Leicester, Millbury, Oakham, Paxton, Rutland, Warren, West Brookfield, Westminster, Princeton and Holland had inmates during the year, and Auburn, Berlin, Boylston, Dana, New Braintree, Sterling and Hubbardston had none.

For several years, the Supervisor of State Infirmaries, has recommended an addition to the house, so that inmates occupying the third floor, could be cared for on the ground floor.

At its July meeting, the Association voted to build the addition and appropriated \$4,500.00 for the same. This addition is completed and occupied, and the several towns in the Association will be assessed to pay for it. It is hoped that this will be attended to at the several Town Meetings.

The expense of the new addition follows:

Contract, Carpenter, Plasterer, etc.	\$3,489 00
Plumbing and heating	490 00
Electric wiring and fixtures	60 00
Paint material and labor	260 01
Plans, etc.	25 00

	\$4,324 01

Report of Millbury Public Library

Days open during the year 228.

Circulations were for the year, 20,008

Classified as follows:

Fiction	12,730
Juvenile	5,314
Classified	971
Magazines	993

Number of books bought during the year—360

23 books given during the year by:

Philip Johnson, Park Hill.

Millbury Woman's Club.

Lois Buel, Sutton, Mass.

Also 7 volumes of the Great Events of the Great War was given in memory of Dr. and Mrs. A. G. Hurd.

We wish to call attention to the valuable assistance which we have received from the State Library Bureau, both in advice and in actual help on the catalogue and books, Miss E. Louise Jones spending two days and Mrs. Ruth M. McQuarril devoting some six days to this work.

We were again unable to use any of the Trust Funds in the Millbury Savings Bank, but managed to renovate the interior to a considerable extent and to buy a few more books than we bought in 1930.

M. PEARL LACOUTURE,
EDWARD F. RICE,
ARTHUR W. SNOW,

Trustees.

Report of Engineers of the Fire Department

To the Honorable Board of Selectmen:

The Engineers appointed by your board met and organized as follows:

William D. Horne	<i>Chief</i>
Joseph E. Army	<i>First Assistant and Clerk</i>
Richard F. Gillert	<i>Second Assistant</i>

During the year, No. 1 Company answered 30 bell alarms, 13 still alarms, and 21 false alarms. No. 2 Company answered 36 bell alarms, 24 still alarms, and 10 false alarms.

With the exception of three serious fires which caused a loss of \$37,293.00, our loss would have been very small, as our total loss was: Real Estate \$29,711.48, Contents \$11,442.44. These figures prove that with the co-operation of the citizens in using precaution and the efficient work of the firemen, that the fire loss can be reduced each year.

With oil fast becoming the fuel for heat, it is making a far more fire hazard, not so much in the burner, if you get one, and the law requires that you must get one approved by the Board of Public Safety. In the storage of oil, the law requires a permit to operate so that we may see that it is kept in a proper place. These permits are obtained from your Chief of the Fire Department.

In case of fire, always send someone to your nearest fire alarm box, look today and see where it is located. Break the glass, turn the knob, open door and pull hook down once and remain at box until firemen arrive so that you can direct

them to the fire. When using telephone, during the day-time dial 666; at night, Sundays or holidays dial 555, if no response, dial 777.

Do not allow rubbish to accumulate in cellars, attics, or back piazzas. Have your chimneys and stove pipes cleaned at least once a year. Ask your electrician what size amp. fuse plug you should use for the load you are carrying, never use coins for fuse plugs, and keep a dish containing sand under your oil faucet. Above all, keep your oil burner clean.

It is surprising to see what fire a 2½ gallon fire extinguisher will put out at the beginning of a fire. One can be obtained from the Board of Engineers at cost price, and may be the means of saving your property, or checking it until the firemen arrive.

Follow these precautions and save yourself from fire loss.

Respectfully submitted,

WILLIAM D. HORNE,
JOSEPH E. ARMY,
RICHARD F. GILLERT,
Board of Fire Engineers.

December 7, 1931.

To the Honorable Board of Selectmen:

The Board of Fire Engineers, ask for an appropriation of \$5100.00 to be used for the year 1932.

WILLIAM D. HORNE,
JOSEPH E. ARMY,
RICHARD F. GILLERT.

FOREST FIRE DEPARTMENT

For forest fire work, I ask for an appropriation of \$800.00 for the year 1932.

WILLIAM D. HORNE,
Forest Warden.

Report of Board of Health

December, 1931

To the Honorable Board of Selectmen:

I hereby present the annual report of the Board of Health for the year 1931:

Anterior Poliomyelitis	5
Bronchial Pneumonia	3
Chicken Pox	9
Diphtheria	9
Dog Bite	24
German Measles	36
Lobar Pneumonia	3
Measles	15
Mumps	19
Scarlet Fever	31
Tuberculosis	1
Typhoid	1
Whooping Cough	1

Respectfully submitted,

LOUIS H. BALLARD,
Clerk of the Board of Health.

Report of Animal Inspector

To the Selectmen of Millbury :

During the year 90 barns where cattle are kept were inspected. Seven of these stables are under State and Federal supervision.

There were 20 dog bite cases reported during the year. In two cases rabies developed and the persons bitten took the Pasteur treatment.

Respectfully submitted,

F. A. WATKINS,

Report of Milk Inspector

To the Selectmen of Millbury :

Fifteen milk licenses were issued the past year. About 80 per cent of the milk delivered is handled by six of these dealers. Four of these six have tested herds, the other two are selling Pasteurized milk. All milk sold in the stores is either Pasteurized or from State and Federal tested herds.

Respectfully submitted,

F. A. WATKINS.

Report of Moth and Tree Warden

December 31, 1931.

To the Selectmen of the Town of Millbury:

Report of the Gypsy and Browntail Moth Superintendent, Elm Beetle Superintendent, and Tree Warden of the Town of Millbury.

Gypsy moths have increased over last year. Elm beetles have also increased over last year. Browntail moths are about the same as last year. Satin moths have decreased since 1st year.

Respectfully submitted,

EDWARD F. ROACH.

Town Warrant

Worcester, ss.

To either of the Constables of the Town of Millbury, in the County of Worcester, Greeting:

In the name of the Commonwealth of Massachusetts, you are directed to notify and warn the inhabitants of the Town of Millbury, qualified to vote in elections and town affairs to meet at the Town Hall, Precinct One, and at the Community House, in East Millbury, Precinct Two, in said Millbury, on Monday, the First Day of February, next, at fifteen minutes of Six o'Clock in the forenoon, to elect the following officers, to wit:

Article 1. Three Selectmen for the term of one year; a Town Clerk, Treasurer, Collector of Taxes, Auditor, Moderator, six Constables, Tree Warden, Highway Surveyor, all for a term of one year; one Member Board of Public Welfare for three years, one Member of the School Committee for three years, one Assessor for three years, one Member of the Board of Health for three years, Trustee of Town Library for three years, all to be voted for on one ballot.

Article 2. To choose all other necessary town officers for the year ensuing.

And to meet on February 6th, 1932 at 2 P. M. at the Town Hall, in said Millbury, to act on the following articles, to wit:

Article 3. To hear reports of the several Town officers and committees and act thereon.

Article 4. To raise and appropriate such sums of money as may be necessary to defray Town Charges for the year ensuing, including sums for the lighting of streets, the maintenance of the Town Library, the observance of Memorial Day, care and improvement of cemeteries, care of clocks, care of fire alarm, the use of the Tree Warden and for Town Aid to needy Soldiers and their widows, salaries of Fire Department, or take any action thereon.

Article 5. To determine the time when all taxes shall be payable and make regulations concerning the payment of the same.

Article 6. To see if the Town will vote to authorize the Treasurer with the approval of the Selectmen, to borrow money in anticipation of the revenue of the current financial year.

Article 7. To see if the town will authorize the Selectmen to employ counsel in any suit that may be brought against the Town.

Article 8. To choose any committee or committees that may be thought necessary.

Article 9. To see if the Town will authorize the Select-

men to publish a list of all uncollected taxes with the annual reports.

Article 10. To see what action the Town will take regarding the hiring of two or more policemen to patrol our streets and to raise and appropriate money for same, or take any action thereon.

Article 11. To see if the Town will authorize the Assessors to print the Valuation and Tax List and raise and appropriate money therefor.

Article 12. To see if the Town will raise and appropriate a sum of money to place two electric lights from the house of Harry Gould, South Main Street, to the house of Peter Kavolis, South Main Street, or take any action thereon.

Article 13. To see if the Town will raise and appropriate the sum of \$350, to be paid the Millbury Society for District Nursing, or take any action thereon.

Article 14. To see if the Town will raise and appropriate the sum of \$4,400 for the year's rental of the accommodations at the Assumption School now used by the Millbury School Department, or take any action thereon.

Article 15. To see if the Town will raise and appropriate a sum of money for granolithic sidewalks, same to be located and built under the direction of the Selectmen, or take any action thereon.

Article 16. To see if the town will raise and appropriate

the sum of \$300 for Traffic Signals, where the State Highway Department granted permit for same, or take any action thereon.

Article 17. To see if the Town will vote to raise and appropriate a sum of money for support and maintenance of the Worcester County Tuberculosis Hospital, as per county warrant, or take any action thereon.

Article 18. To see if the Town will vote to raise and appropriate the sum of \$500 for the suppression of the liquor traffic, or take any action thereon.

Article 19. To see if the Town will raise and appropriate a sum of money to provide for extraordinary or unforeseen expenditures under the provisions of Chapter 40, Section 6, of the general laws of Massachusetts, to be known as the reserve fund, or take any action thereon.

Article 20. To see if the town will vote to raise and appropriate a sum of money for a curb on West Street, southerly side, leading from Main Street, and be continued on Water Street, or take any action thereon.

Article 21. To see if the town will raise and appropriate the sum of \$1,050 to buy a safe or a storage steel cabinet, for town records, under the direction of the Selectmen, or take any action thereon.

Article 22. To see if the Town will authorize the Selectmen to employ a Civil Engineer, when in their judgment,

it is necessary, and raise and appropriate money therefor, or take any action thereon.

Article 23. To see if the Town will vote to accept the provisions of Section 85 of Chapter 32 of the General Laws as amended by Chapter 161 of the Acts and Resolves of 1931 entitled "an Act relative to the Computation of Length of Service of Police Officers in certain Towns for Purposes of Retirement," or take any action thereon.

Article 24. To see if the Town will vote to raise and appropriate a sum of money to pay overdrafts of Board of Public Welfare for 1931, or take any action thereon.

Article 25. To see if the town will raise and appropriate the sum of \$1,000 to pay for holiday celebration, (July 4, 1932) to honor George Washington's memory, to be under the direction of the Selectmen, or take any action thereon.

Article 26. To see if the Town will vote to raise and appropriate a sum of money to pay overdrafts of Old Age Pension Act, for 1931, or take any action thereon.

Article 27. To see if the Town will vote to raise and appropriate a sum of money to pay overdrafts of the board of Soldiers' relief for 1931, or take any action thereon.

Article 28. To see if the Town will raise and appropriate a sum of money for state aid relief to defray expense of current year, or take any action thereon.

Article 29. To see if the Town will vote to raise and appropriate a sum of \$400 for military aid for 1932, or take any action thereon.

Article 30. To see if the Town will vote to raise and appropriate a sum of money for the purchase of a tractor for the use of the Town, or take any action thereon.

Article 31. To see if the Town will vote to adopt the division of the Town into further convenient Voting Precincts as shown by the map and description prepared by the Selectmen and reported to the Town Clerk and adopt the report of the Selectmen so made and provided, and to raise and appropriate any money for the expenses thereof, or take any action thereon.

Article 32. To see if the Town will raise and appropriate a sum of money to pay abutters for property taken on account of widening Grafton and Worcester Road, and for expenses incurred in regards to same, in accordance with liability assumed at Special Town Meeting, November, 1928.

Article 33. To see if the Town will vote to raise and appropriate the sum of five hundred (\$500) to pay for six band concerts during the summer of 1932, or take any action thereon.

Article 34. To see if the town will vote to purchase of Eudor Lebel the right of way, to lay a drain pipe across his land for the purpose of providing a drainage for Riverlin Street, and authorize the Selectmen to negotiate same on

behalf of town, and raise and appropriate money therefor, or take any action thereon.

Article 35. To see if the Town will raise and appropriate a sum of money to place one electric light on Atwood Ave., from Hamilton Street, or take any action thereon.

Article 36. To see if the Town will vote to raise and appropriate a sum of money to finish and oil the Highway known as the Wheelock Avenue Extension, or take any action thereon.

Article 37. To see if the Town will vote to raise and appropriate a sum of money to macadamize the surface of Grafton Street from the corner of Riverlin Street to a point at the fork of the roads just beyond the New England Power Company station, and widen road from Goodell's house to the New England Power station, and fix culvert, to be under the supervision of the Selectmen, or take any action thereon.

Article 38. To see if the Town will raise and appropriate a sum of money for a granolithic sidewalk and curbing on the east side of South Main Street, beginning at the home of George Rice and running toward Maple Street, or take any action thereon.

Article 39. To see if the Town will raise and appropriate a sum of money to place a granolithic sidewalk and curb on the westerly side of North Main Street from Summer Street running toward Orchard Street and join the present

sidewalk and curb that was built last year, or take any action thereon.

Article 40. To see if the Town will pay overdrafts of Military Aid, or take any action thereon.

Article 41. To see if the town will vote to raise and appropriate a sum of money to install a false cement curb in front of the Ducharme Brick Block on Main Street, or take any action thereon.

Article 42. To see if the Town will raise and appropriate a sum of money for a granolithic sidewalk and curbing, beginning at the east side of the junction of South Main and Maple Street, and extending to Town Hall Building, or take any action thereon.

Article 43. To see if the Town will raise and appropriate the sum of \$1,200 to repair Greenwood Street and Auburn Road, or take any action thereon.

Article 44. To see if the Town will vote to discontinue its Voting Precincts established under the provisions of Section 6 of Chapter 54 of the General Laws, or take any action thereon.

Article 45. To see if the Town will raise and appropriate a sum of money for the purpose of widening the road leading from the fork of Dolan's road to the town line of West Millbury on the westerly side of Ramshorn Pond, or take any action thereon.

Article 46. To see if the Town will raise and appropriate a sum of money for electric lights on the road leading from the fork of Dolan's road to the town lines, West Millbury, on the westerly side of Ramshorn Pond, or take any action thereon.

Article 47. To see if the Town will raise and appropriate the sum of \$599.00 to pay our share for the New Addition of Charlton Home Farm Association, or take any action thereon.

Article 48. To see if the Town will contract with Harold D. Woodbury for two fire hydrants, located at Johnson Street and Park Hill, and raise and appropriate money therefor, or take any action thereon.

The polls will be open at 5:45 o'clock A. M., and may be closed at 4 o'clock P. M.

And you are directed to serve this warrant by posting up an attested copy thereof at each of the Post Offices and at the First Congregational Meeting House in Bramanville, and at the Fire Station and Community House located at Wheelock Avenue, East Millbury, in said Town seven days at least before the time of holding said meeting.

HEREOF fail not and make due return of this warrant with your doings thereon to the Town Clerk at the time and place aforesaid.

Given under our hands this Thirteenth day of January
in the year one thousand nine hundred and thirty-two.

FRED H. VULTER,

ALCIDE MAYOTTE,

PATRICK J. GIBSON,

Selectmen of Millbury.

Attest:

Constable of Millbury

Millbury, Mass., January 13, 1932.

Report of School Committee

To the Citizens and Taxpayers of the Town of Millbury:

Your school committee herewith submits its annual report for the past fiscal year. This report, as in the past, contains the superintendent's report and the report of the various principals and supervisors which were made to the superintendent. The auditor's financial report will be found with the report of the Town Officers. All of these reports are submitted for the consideration of those who are interested in the doings of the school department.

This year, however, your committee desires to call particular attention to the report of the superintendent for the double reasons that it is his twentieth annual report and that it contains much matter of a historical nature showing the condition of the schools twenty years ago and the changes that have taken place in the schools and school buildings and equipment since that time. How many of us, if inquired of, would answer that the number of pupils in the public schools in Millbury had almost doubled in twenty years? How many would believe that we now have three times as many pupils in the high school as we had twenty years ago? Many of the younger generation do not remember the high school building with only two class rooms in it. Many changes have been made during the last two decades for the improvement of school facilities. It was no small task for the superintendent to gather together all the data which appear in his report relative to the twenty years while he has been superintendent of your schools. It is a resumé of useful information for which we owe him thanks.

Another thing that the committee desires to call to your attention is the comparative cost per pupil and he compara-

tive gross expenditures for school purposes. You will no doubt be surprised to learn that last year the average cost for the State for educating each pupil was \$100.77, while for the Town of Millbury the average per pupil cost was \$79.12. The comparison becomes more striking when you look at the list in the superintendent's report showing eleven towns in the State with a population of substantially that of the Town of Millbury, and these eleven towns are the only towns in the State of about the same population, had a total expenditure for school purposes for the last year reported in the State Reports of sums varying from \$151,159.22, the highest, to \$89,971.81, the lowest. The report for Millbury showed that the amount of moneys expended was less than for any of the other towns of its size in the State and that Millbury's expenditures were nearly \$60,000 less than the highest on the list and \$10,000 less than the one next lowest to it on the list. The Town of Grafton was the lowest with the exception of the Town of Millbury and Grafton expended \$10,000 more than the Town of Millbury. We call attention to some of the above facts for the purpose of making you a little more curious to read all the facts more in detail contained in the report of the superintendent. Again we suggest that you read his report carefully.

Another thing that will please you is that we were able to carry on the schools this year at a cost of \$5.00 less per pupil than last year.

Notwithstanding all the above statments and the fact that Millbury is expending so little money in comparison with what the other towns of the State are expending, please remember that the schools of Millbury are of very high grade and that graduates of the high school are entitled to all the certificate privileges to which any high school in the State is entitled. A matter in which we should take pride is that the children of the Town of Millbury are receiving in the public schools education as good as in any part of the State.

On the twentieth anniversary of the beginning of Mr.

Ferguson's service, the committee desires to congratulate him because it feels that the present condition and the high standing of the schools is due in no small degree to his earnest effort and conscientious work.

During the past year in accordance with the vote of the Town four rooms have been hired from the Church of the Assumption. The school work has been carried on there very successfully and the committee sees no reason to regret the action taken by the Town in hiring these rooms for school purposes.

Co-operation and results have been the watchwords of your committee. Harmonious action between the school committee, the superintendent and all under him as teachers and supervisors has continued.

Millbury citizens and institutions have shown very particular interest in the schools by donations for prizes. To them and all who have contributed in any way for the success of the schools and to the taxpayers, many of whom earned their money through hard labor and contributed in the form of taxes to assist in carrying out the great scheme of public education, thanks are due.

Respectfully submitted,

THOMAS H. SULLIVAN,
WALTER B. HORNE,
DR. HENRY A. LECLAIRE,
School Committee.

Report of Superintendent of Schools

To the School Committee :

I respectfully submit my twentieth annual report and the forty-second in the series of reports by Millbury School Superintendents.

In this report are included also various school statistics and the reports of the High School principal, the school physician, the school nurse, the supervisors of music, drawing, domestic science, manual training and physical training, to all of which your attention is called for detailed information in regard to their respective work.

The following topics will be briefly considered in this report:

1. Resumé of Changes Since 1912.
2. Resumé for 1931.
3. Acknowledgments.
4. Comparative Costs.
5. Receipts and Expenditures.
6. Requirements for 1932.

Resumé of Changes Since 1912

It seems fitting in this, my twentieth report, to make a brief resumé of the more important changes that have taken place in the Millbury Schools in the period since my first report.

The school population has increased from barely 800 of whom 100 were in the High School to nearly 1475, of whom 275 are in the Assumption Parochial School, 296 in the High School and 900 in the Elementary Schools. The High School then required four teachers and two part-time teach-

ers while now the increased attendance necessitates 13 full time teachers and 5 part time special teachers. We now employ 46 teachers and special teachers where we had then only 27.

Then approximately \$23,000 a year made up the school budget. Today \$93,000 are needed for this. Then the school year varied from 36 weeks for the elementary schools to 40 weeks for the 8th grade and the High School. Now all schools run 40 weeks. Then the minimum salaries were \$360 for the elementary schools and \$500 for the High School. Now these have been increased to \$850 for the first six grades, \$1100 for the Junior High and \$1200 for the Senior High and the maximums correspondingly higher.

We now spend approximately four times as much for total expenditures, four times as much for salaries, six and one-half times as much for fuel, eleven times as much for conveyance, four times as much for repairs and equipment, two and one-half times as much for books and supplies, and about the same amount as in 1912 for miscellaneous, which is probably due to the fact that some bills then listed as miscellaneous are not now so charged.

Though these respective expenditures have multiplied themselves, their increase is not due entirely to increased prices, but much to increased school population. This has necessitated more buildings, and more expense for added janitor service, repairs, supplies, fuel, conveyance and teachers. Three new buildings have been built, the High, East Millbury and Dorothy Manor and two closed or demolished, the Park Hill and Old High. Also four additional rooms are now rented of the Assumption Parochial School. We now use over twenty rooms more than in 1912. Where less than 30 children were carried to school then at a cost of less than \$700, we now convey 275 children at an expenditure of nearly \$8000 a year. Where then \$1125 were spent for fuel, now approximately \$7000 are needed to heat the increased number of rooms.

Though the teachers' payroll has quadrupled, this has not been due entirely to salary increases. The increase in number of teachers alone in the High would make the salaries there over four times as much. The increase in number of grade teachers accounts also for a considerable part of the greater total paid now. New state laws establishing higher minimum salaries for teachers and also still higher minimum salaries for those towns wishing to benefit from re-imbursements of from \$100 to over \$300 a teacher. This year these re-imbursements amounted to \$11,760 or over one-fifth the total salaries paid.

In 1912 there were no adequate or special rooms for commercial work, for manual training, for physical training, for drawing, for laboratory work, for assembly purposes. Since then all these have been provided. There was then not a single flush water toilet in any building but one, the Union, and here they were so poor and so poorly placed as to necessitate their removal and a complete re-arrangement. No building had electric lights, no building but one had an approved ventilating system, only one building had adjustable seats and the most of these had been provided during the preceding year. Only the Union School had slate blackboards, no building had been recently redecorated and only the High School was well provided with wall pictures. Floor oil had just been used for the first time. Toilet paper, paper towels, liquid soap had never been provided. No adequate disposal of the sewerage from the High and Union Schools had yet been made. Very little attention had been given to sanitation, practically all the toilets being in outhouses. As there had never been a school nurse, little attention was being paid to remedy the defects of the under-privileged child. No medical supplies or kits were provided any building for emergencies. There was no insurance of school conveyors for the protection of the child and the conveyances except those provided by the Worcester Consolidated were still open wagons drawn by horses.

No conveyance was provided except for children living on upper Riverlin Street and beyond the Park Hill School. Few, if any, High School children received transportation. The Junior High School had not yet been thought of. The children of the 7th and 8th grades were distributed among five schools, Town Hall, Union, Providence Street, Burbank and West Millbury. There was no departmental work below the High School. The giving of standard tests was as yet unknown, and the using of these to better grade and understand the pupils. More than half of our pupils between 14 and 16 years of age went to work almost as soon as they reached the age of 14 years. The High School had lost recently its right to certify pupils to the Normal Schools and its privilege of certifying to colleges was limited to one-year terms. There were few pupils yet at East Millbury and none at Dorothy Manor and buildings had not yet been thought of for these sections. The High School was old, inadequate and outgrown. There was no physical training or posture work. No manual training for any but a few 8th grade pupils was yet given and this without a trained instructor. What domestic science was given was taught without a regularly employed special teacher.

Every one of these conditions has been changed. Every building has now modern flush toilets. Every building has approved ventilating systems. All but one have new heating systems. All rooms are now provided with electric lights. Every room wholly or in part now has slate or Keene cement boards. All but four rooms are provided with movable or adjustable desks and these do not require them. All buildings are provided with toilet paper, paper towels, liquid soap, bubblers, running water, and with oil for the floors and special attention is paid to cleanliness and sanitation. Adequate cesspool provision has been made for the High and Junior High Schools. The interiors of all buildings have been redecorated and the rooms provided with attractive pictures.

The school busses are now heavily insured against injury to the children. School patrols have been organized in the schools below the Junior High to safeguard the children going home from these schools.

Where then there was no provision for the looking after the welfare of the under-privileged child with poor sight or hearing, or posture, or other physical defects such as enlarged tonsils, adenoids, tubercular tendencies, etc., now the school nurse, the school physician and the supervisor of physical training are all looking for evidences of these and are arranging for their correction through Worcester and State clinics. Over 100 children have benefited during the year by some help they have received from some clinic thus arranged for. Emergency couches and medical kits have been provided every school.

The Junior High School has been organized, its curriculum modernized and all the pupils in its grades assembled in one building. Its work has been made entirely departmental and each grade has been divided into three sections by intelligence tests and teacher ratings. Special teachers of domestic science, manual and physical training are now employed and the time devoted to these greatly increased.

The High School now enjoys every certificate privilege given to any school.

Among the factors most potent in influencing and directing the progressive policy of your schools is the chairman of your committee, Thomas H. Sullivan, who has been one of its members for 33 years and also for the past 12 years one of six members of the State Advisory Board of Education. Your schools have thus been able to benefit from his wide experience and his knowledge of the larger educational affairs of the State as well as from his conservative good judgment. Believing as he does that the Superintendent of Schools must bear the burden for the successful management of the schools he has during all these years consistently approved his recommendations of teachers for ap-

pointment. His long service and experience have tended to develop a more uniformly progressive and a less erratic system of school administration and procedure. I may properly in this my twentieth report express my deep appreciation for the good and friendly counsel he has given me so often and the great assistance he has been in helping to promote whatever progress has been made during the period since my first report was written.

During the last twenty years there have been but six other members of the School Committee, James M. Cronin, who died Dec. 3, 1912, Edward F. Hull, Dr. A. L. V. Sharon, Charles F. Day, and the present members, Walter B. Horne and Dr. Henry A. LeClaire. All these members during their terms of service worked together harmoniously for the good of the schools. They, too, have given me good counsel and done everything they could to co-operate with and help me to promote the progress of the schools.

These changes for the better have come about gradually. There are other equally desirable improvements to be made when the money becomes available, such as rooms for children who need special training on account of mental retardation, for girls who need better training in domestic science, for children under the school age who should attend kindergarten, etc. Our school grounds are badly in need of regrading, and of improvement for playground purposes. Additional auditorium, gymnasium, library, laboratory, and domestic science rooms are all needed for the High School. The things we need to keep pace with educational demands of the times are so many as to make one hesitate to enumerate them all.

Resumé for 1931

(1) Because of increased attendance at the High School, two more teachers have been appointed making the number now 13. This is the number required, if the school is to retain its Grade A certificate standing from the State.

(2) The problem of congestion at the High School has been temporarily partially solved by

- (1) Removing Grades I-IV from the Union School to four rooms rented for them from the Assumption Parochial School.
- (2) Removing the four Junior High classes from the High School to the four rooms left vacant at the Union School.

These changes give the High School the use of all rooms in its building and the Junior High the use of all rooms in the Union School.

(3) At a special town meeting, the town voted to rent four rooms at the Assumption Parochial School. The rental price \$4400 a year is not only for the four rooms, but for a teacher's room, janitor service, heating, lighting, and the use of the toilets and playgrounds. Father Marceau and the Sisters of the Assumption have done everything possible to make the arrangement satisfactory and pleasant.

(4) New school furniture has been purchased for five rooms at the Union School and electric lights installed there in the three rooms not having them.

(5) At the High School the following improvements have been made:

- (1) The purchase of a high powered compound microscope for the use of the biology classes.
- (2) The purchase of a half horse-power electric motor for the manual training department.
- (3) The purchase of sectional bookcases to be placed in the High School auditorium. A portion of this room will now be used as a reference library. Heretofore our library books have been scattered all over the building and not easily accessible to anyone.
- (4) The purchase of collapsible tables and benches for the High School gymnasium to be used by our large number of dinner pupils. Heretofore

there has been no suitable place for lunch purposes for these pupils.

- (5) The installation of a lavatory and toilet in the teachers' room.
- (6) Hereafter Physics and Chemistry which heretofore have been offered on alternate years will be given every year.

(6) Electric lights have been placed in the remaining four rooms at the Burbank School. A new flag pole has also been presented to and set for this school by Otis D. Horne.

(7) An electric sanding machine and an electric paint sprayer have been purchased for restoring the tops of old desks, etc. Already they have been used in restoring the tops of over 160 desks at Providence Street, etc. The sanding machine can also be used to re-surface the discolored slate blackboards.

(8) This year for the first time, the hearing of all our children has been tested with an audiometer. This instrument provides the best means of detecting incipient deafness. This district was fortunate in being the first to secure its loan from the Worcester Hard of Hearing Committee. The children were tested and checked by Miss Anna Shattuck. She found 40 children who appeared to be deaf enough to justify them being referred to a clinic. Since the giving of this test a clinic has been organized in Worcester for such children. As we were the first to use the audiometer, our children will be the first to be examined at the clinic. In fact before this report is printed, they will have been already examined.

(9) There has been a notable increase in membership in both the High and Junior High Schools, the enrollment of the two schools reaching over 500 in September. Both schools will have in June their largest graduating classes thus far. Over 60 will be graduated at the High and over 100 at the Junior High.

(10) An unusual amount of work has been done for the

under-privileged child. Not only have the eye, ear, scoliosis, tonsils, adenoids, speech defect clinics at Memorial Hospital been frequently made use of, but also there have been held in Millbury, State clinics for pre-school children and for the follow-up in the State Ten Year Plan for tuberculosis. The Worcester School for Deaf in at least three cases has been used. Through the generosity of the Kiwanis Club we have been able to do much more than usual with the treatment of children for tonsils and adenoids. It paid the expenses at Memorial Hospital for the removal of tonsils and adenoids of over 20 children. The local dental clinic and also the provision of pasteurized milk both sponsored and partially supported by the Millbury District Nursing Association have been continued.

(11) Space does not permit mentioning all the teachers who have done creditable things during the past year. These only will be mentioned who have accomplished some especially outstanding thing with their pupils:

Mr. Beaton for providing cup winning teams in baseball and cross-country running; Miss Sullivan for developing a championship girls' basketball team; Mr. Ratigan for training the winner in the State Essay Contest on "What Pacific Means Should Be Developed to Make the Paris Pact Effective?" who thus became the State representative in the national essay contest on "The League of Nations;" Mr. Shaw for training the winners in the Inter-High School Debating League; Miss Butkiewicz for so training her pupils in drawing that in the annual state poster contest of the Society for Prevention of Cruelty to Animals, 33 of her pupils won medals or other awards for the excellence of their posters and besides a general commendation, "The posters of Millbury were good;" Miss Dolan and Miss Tobin for the large number of their children who received the highest Palmer awards in penmanship; Miss Connor for organizing and directing successfully our largest school orchestra; Miss Zona for the extra interest she has taken in many ways for

the improvement of her school. She and her children have set out a lilac hedge in the front of the school and placed swings in the yard. Also she is giving the older boys work in manual training for which tools have been provided her; Miss Stafford for her indefatigable work in securing clinic opportunities for children, getting consents of parents, arranging for transportation, arranging dates and oftentimes securing the means to defray the expenses of those not financially able. Other teachers are carrying on special activities as Miss Massei, an after school domestic arts class; Miss Cutts, an after school dramatic club; Misses Riordan and Leavitt, directing the work of the Reflector.

(12) The office of the school department has been further systematized. A clerk will be there every school day until 5 o'clock and on Saturday mornings. She will keep an account of all books and supplies given out, will issue work certificates, keep the school accounts, make out the payroll and list all bills, do such other office work and furnish such information as may be required.

(13) Much needed redecoration of halls and stairways of High and Union Schools and the completion of installation of electric lights at Providence Street have been made.

(14) The putting in of a concrete floor in the vacant basement room at the Dorothy Manor School.

To Whom We Owe Thanks

(1) To Dr. A. L. V. Sharon for his annual prize to the pupil of the 8th grade writing the best essay on "The Care of Teeth." This year's prize was won by Edith Murray.

(2) To the Kiwanis Club which has again sponsored the school patrol for the elementary schools and met the expenses incurred for belts, etc. We feel that the safety of the small children is much better looked out for under this plan than heretofore. We are also indebted to it for conveying over twenty children to Memorial Hospital and meeting the

expense there incurred for removal of tonsils and adenoids and correction of sight.

(3) To the District Nursing Society who has sponsored the Dental Clinic and the distribution of pasteurized milk to the various schools and met a part of the expense involved. The benefits derived have been very great.

(4) To William W. Windle for allowing the use of the Windle Field to the High School boys for baseball, also for prizes offered for best essays by pupils of the High School on "The Utility of the Savings Bank to the Community."

(5) To the Millbury Savings Bank for its co-operation in promoting thrift through the school savings system.

(6) To Otis D. Horne for the presentation to and setting of a flag pole at the Burbank School.

(7) To the Worcester Hard of Hearing Committee for the use of its audiometer for testing the hearing of the children and for arranging a clinic for those found defective in hearing.

(8) To Gordon Hurd for establishing a fund in memory of his father, Dr. A. G. Hurd, the interest of which to be used to continue the annual prize given by Dr. Hurd for the best essay of a member of the Senior class of the High School on some subject relating to health.

(9) To all others who have in any way assisted in promoting the welfare of the schools.

Relative Cost of Our Schools

In these days of mounting costs of education, people naturally wish to know something about the relative cost of their schools compared with those of other communities. Fortunately, the figures for the State for the year ending June 30, 1931, are available.

Per Pupil Cost

Items	Mass. 1930-1931	Millbury 1929-1930	Millbury 1930-1931
Control	\$ 3.84	\$ 3.50	\$ 3.35
Salaries	69.92	51.51	49.21
Books and Supplies	4.81	4.26	3.93
Janitors, Fuel & Misc.	10.85	12.09	10.77
Repairs	5.08	4.68	4.00
Health	1.64	1.21	1.08
Transportation	2.72	6.83	6.68
Tuition	1.03		
Miscellaneous No. 2	.87		
Totals	\$100.77	\$84.10	\$79.12
Appropriation			\$93,000.00
Return from State 1931			11,760.00
			<hr/> \$81,240.00
Per Pupil Cost 1929-30			\$84.10
Per Pupil Cost 1930-1931			79.12
			<hr/>
Lower Cost for 1930-31			\$4.98
Per Pupil Cost 1930-31			\$79.12
Per Pupil Return from State 1930-31			10.34
			<hr/>
Town Cost Per Pupil			\$68.78

How Your School Dollar Is Spent 1930-31

Salaries, Supr's., Prins., Teachers	.63

Repairs and Furniture	.05
Transportation	.08
Books and Supplies (Books .03; Supplies .02)	.05
	<hr/>
	\$1.00

Cost of schools in three neighboring towns of about the same location as regards Worcester and of about the same population and valuation as Millbury.

Costs 1930-31 (State Year)

Town	Population	Valuation	Expenditures
		April 1, 1930	
Millbury	6,957	\$5,891,118	\$89,971.81
Auburn	6,147	5,996,530	106,961.13
Grafton	7,030	4,959,924	99,587.50
Shrewsbury	6,910	8,110,282	133,991.73

It should be borne in mind that these figures do not agree with those for the town year ending December 31. The latter figures covering a different period might be more or less, for Millbury they would be, as shown hereafter, about \$3,000 more.

The following towns in order of population made the following expenditures for schools for the State year ending June 30, 1931.

Town	Population	Expenditures
Agawam	7,095	\$151,159.22
Grafton	7,030	99,587.50
Franklin	7,028	130,589.64
Chelmsford	7,022	104,864.07
North Andover	6,961	109,910.83

Millbury	6,957	89,971.81
Dracut	6,912	103,170.10
Shrewsbury	6,910	133,991.73
Hingham	6,773	147,809.85
South Hadley	6,657	115,704.84
Randolph	6,553	104,474.26

Receipts and Expenditures, 1931

Receipts:

Appropriation	\$93,000.00
---------------	-------------

Expenditures

School Costs	92,997.26
--------------	-----------

Balance	\$2.74
---------	--------

Special Appropriation

Receipts:

Appropriation	\$3,500.00
---------------	------------

Expenditures	3,496.73
--------------	----------

	\$3.27
--	--------

Item	Expended, Town Year ending Dec. 31, 1931	Required for 1932
Payroll	\$66,361.70	\$68,000
Conveyance	7,950.00	8,000
Repairs	4,725.46	4,200
Miscellaneous Nos. 1, 2	1,792.62	1,800
Books and Supplies	5,243.49	5,000
Fuel	6,923.99	7,000
Totals	\$92,997.26	\$94,000

Of this expenditure of \$92,997.26 the State reimbursed the Town \$11,760, making the actual cost of the schools to

the Town \$81,237.26. Next year the payroll will be \$1500 larger because of the addition in September of two teachers in the High School. Otherwise the expenditures should amount to about the same as last year. It will therefore be necessary to ask for \$94,000 for the coming year plus \$4,400 for the rental of the school rooms at the Assumption Parochial School. When this expenditure is compared with that of neighboring towns of our class, it will be found a conservative one.

I wish to express my deep appreciation of the splendid co-operation and support that have been given me by your committee and by the teachers. If the schools have failed in the performance of their duties or in the maintenance of a proper standard of efficiency the Superintendent of Schools should be held largely responsible.

Respectfully submitted,

C. C. FERGUSON,
Superintendent of Schools.

High School Principal's Report

Mr. C. C. Ferguson,
Supt. of Schools,
Millbury, Mass.

Dear Sir:

I have the honor of submitting my third annual report as principal of the Millbury High School.

The problem of increasing our High School accommodations which has confronted us for the past several years this year found a temporary solution. Four grades of the Union Grammar School are housed in the space rented by the town from the Assumption Parish.

While our school now has a very creditable record for good work it could undoubtedly do much better, if it had such additional accommodations and conveniences as a new building would offer in the way of laboratories, auditorium, gymnasium, library, domestic science and manual training equipment. More important than rooms and equipment is the faculty of a High School, and we have abundant proof that our school has an excellent teaching force. At present we have graduates holding scholarships for excellence in studies at Worcester Institute of Technology and Clark College. However, an even greater source of pride is the general standard of excellence which our graduates attain no matter where they pursue their higher studies. The object of the school, of course, is to develop the average students and it is by their success that we measure the excellence of the school.

The following facts should be a source of great satisfaction to the citizens of Millbury; we have graduates in

the following universities, colleges and normal schools: Boston University, five; Clarke College, six; Holy Cross College, two; Middlebury College, one; Mount Holyoke College, one; Northeastern University, four; Providence College, one; Worcester Polytechnic Institute, seven; Worcester State Normal School, fifteen; Framingham State Normal School, two; Simmons College, two; Post Graduates, three.

The work of our graduates in such representative institutions has entitled us to many state and college certificates. We have the maximum state certificate for one year admitting certified Millbury High School graduates in any state institution without examination. The maximum New England College Board Certificate admitting properly certified graduates to affiliated New England Colleges without examination, the Worcester Institute of Technology Certificate for three years and the Holy Cross College Certificate privileges.

Gertrude Broberg attracted the attention of educators from all parts of the state to our High School by winning the State Prize awarded by the National Student Forum on the Paris Peace Pact. Prizes in the form of facsimiles of the Paris Peace Pact were given both to the school and to Miss Broberg for her excellent solution. The school prize is on permanent exhibition in the Principal's office. Even greater success attended the efforts of Miss Broberg in the National Contest of the League of Nations Committee. In this nation-wide contest Miss Broberg attained the signal honor of runner-up to the national champion.

We have referred to the prize scholarships won by two of our graduates. These young men Burton Clark and George Lisk merited these scholarships by their excellent work during their High School course. Carl Johnson and George Davagian are scholarship men at Worcester Tech.

The Millbury Savings Bank showed a fine public spirit by offering prizes totaling thirty dollars for the best essays

submitted on the subject, "The Utility of the Savings Bank to the Community." First prizes were awarded to Helen Hamilton and Genevieve Kersulis. Second prizes were awarded to Florence Fenner and Elvira Paletta. We are also indebted to Edward O. Ludvigson for prizes given to members of the graduating class on class day. Gertrude Broberg won the Washington Lafayette medal given to the pupil having the highest average in American History.

Remarkable success attended our second adventure into the field of County High School debating. The Worcester County Interscholastic Debating League Trophy now adorns the principal's desk as a result of victory over the debating teams representing North Brookfield, Spencer, Leominster and Webster High Schools. Much credit for this success should be given to Mr. Raymond E. Shaw.

In the field of athletics the boys' baseball team won the Worcester County Championship. Not to be outdone the girls' basketball team won its second consecutive Worcester County Championship. Congratulations are due to the coaches of the respective teams, Mr. Stephen Beaton and Miss Jane Sullivan. Mr. Beaton organized the school's first cross-country team this fall. His efforts as well as those of the candidates were rewarded by winning the Worcester County Interscholastic Cross-Country Championship.

Attendance and application to studies continued to be excellent during the school year. We are sure that this is due to the excellent co-operation of the parents which we hope will continue in the future. Much of the success of our pupils is certainly due to your own experienced and kindly guidance.

Very truly yours,

WILLIAM D. SHEA,
Principal.

Report of School Physician

Mr. C. C. Ferguson,
Supt. of Schools,
Millbury, Mass.

Dear Mr. Ferguson:

The annual inspection and examination of the public school children is being made. The pupils in the grades in the several buildings and in the Junior High have been examined. The pupils in the High School will be examined in the near future.

The health conditions in the schools, on the whole, are quite satisfactory and we feel that there is a healthy growth of health consciousness of the parents and that their cooperation in having defects remedied is on the increase.

There was no outbreak of any of the communicable diseases in the schools during the past year.

Respectfully submitted,

ARTHUR A. BROWN, M.D.

Report of School Nurse

Mr. C. C. Ferguson,
Supt. of Schools,
Millbury, Mass.

Dear Mr. Ferguson:

Z

I hereby submit my report as School Nurse in the Millbury schools.

Some of the outstanding features of health promotion during the past year are as follows:

1. 30 dental clinics held at Dr. Morgan's office, 359 appointments and 253 examinations.

2. At the annual clinic under the State Ten Year Program, 25 children were re-examined, 25 X-rayed, 25 improved, 11 discharged, and 1 recommended for summer camp. At our request 9 new cases were examined and X-rayed, 7 were given the Von Virquet Test, 4 re-acting to this test. This has been our fourth re-examination and the most encouraging report with every child improved. Attendance was 100 per cent.

3. A pre-school clinic was held in June and conducted under the State Department of Health. 49 children were examined by Dr. Susan Coffin. The following is her report: 41 with dental defects, 15 enlarged tonsils, 13 cases of adenoids, 8 glands, 3 poor posture, 3 nutrition, 5 were 7 per cent, 4 were 10 per cent and 3 were 15 per cent underweight. We hoped these children would enter school with defects corrected. In several cases this was done, but the majority of the children entered school without any correction made.

A Tonsil and Adenoid Clinic held at Memorial Hospital and sponsored by the Kiwanis Club took care of 24 children.

Every child has shown marked improvement since this work was done.

The annual Child Health Day held in June was celebrated in all grades from 1 to 6, every teacher prepared a fine program. Tags were awarded those found physically fit, all who had dental certificates and those who had in any way improved in health. The third grade, Union Building, Miss Rose Tully, teacher, was the only 100 per cent room, this being the third year this grade reached 100 per cent.

Two children (girls) enjoyed four weeks at Sterling Health Camp this summer. Christmas seal sales made this vacation possible.

Five conference on Child Health and School Nursing held at Boston, Framingham and Worcester were attended.

Dr. Helen McGillicuddy of the State Department of Health gave a talk to the pupils of the High School. Her subject was Character and Health Education.

Clinics have been visited for examinations or treatment of the following defects: eye, ear, nose and throat. The Child Guidance Clinic has assisted us with some of our problems. After the examinations were made by the school physician, grades 1-6, notices were sent to the parents of children having defects. Tonsils 139, adenoids 84, teeth 219, glands 35, nutrition 25, heart 14 and eyes (strabismus) 6.

Chocolate milk is being sold again this year and a number of children who are underweight receive it without charge through the District Nursing Society.

In closing I wish to thank you, Mr. Ferguson, the teachers and parents who have assisted me in the health work.

Respectfully submitted,

MAY A. STAFFORD, R.N.

Report of Supervisor of Manual Training

Mr. C. C. Ferguson,
Supt. of Schools,
Millbury, Mass.

Dear Mr. Ferguson:

I have the pleasure of submitting my fourth annual report as the Supervisor of Manual Training in the Millbury Public Schools.

The scope of the work accomplished has increased from year to year and also the skill and quality. This is due to additions of both hand tools and small portable electric machines.

The Standard of hand work has advanced through examples of good work done by the preceding classes and the desire to do better than they were able to do.

This work includes carpentry, cabinet work and household repair as its three units. A working knowledge of free-hand and mechanical drawings or plans is studied along with design, good form necessary to sound construction.

Skill of workmanship is co-ordinated with an understanding of the technique and value of the work. All of the more necessary skilled processes are taught such as, measuring, squaring stock, laying out, carving, chiseling, planing, boring, filing, sanding, staining and finishing along with many others.

The electrical machines take the unnecessary part of the work away and also save much valuable time which can be

used on more advanced projects, also made possible by these machines.

A knowledge of the working of these machines is important in future occupation as the trend of the age is more and more towards doing almost every kind of work by machine.

The course as a whole offers the student a chance to benefit in many ways, among them, a possible choice of future vocation such as a pattern-maker or cabinet worker, and a knowledge of how to keep the home in good repair through the ability to do a great many odd jobs which otherwise would have to be done by others who must be paid for their services, also a building up of character received by the realization of what work and planning together will accomplish.

I wish to take this opportunity to thank the teachers and Superintendent of Schools for their appreciated co-operation.

Respectfully submitted,

HALLIS G. BRANNEN.

Report of Supervisor of Drawing

Mr. C. C. Ferguson,
Supt. of Schools,
Millbury, Mass.

Dear Mr. Ferguson:

I hereby submit my report as Supervisor of Drawing in the Millbury Public Schools.

The course for the year which consists of problems in representation, construction and design has been planned, not alone to engender a love of beauty, to develop good taste, to enrich life and to train for leisure, but also to encourage talent and to gratify the desire to create.

Problems in representation or power of graphic expression are of great importance to the general mental training. In the first grade of school the child draws an imaginative picture; and he advances through criticism and observation. His power of expression is increased, although he still uses imaginative power. The child not only learns to think in words, but with word-building he associates this image-making power.

A design course consisting of laws of order, color, shape and line, enables the children to recognize, understand and enjoy order as the basis of beauty in nature and art; gives them power to create orderly and possibly beautiful designs in color, line, shape, and form, and thereby increases discrimination in the selection and arrangement of art products.

Construction problems help to develop skill in measuring, folding, cutting, pasting, and in applying simple decorative designs to the projects constructed.

In the Junior High School the drawing is carried out by the supervisor and Miss Ellen Leary. The children have worked out problems in design, nature study, free brush work, lettering, posters, creative expression, color, figure drawing, greeting cards, and construction.

The High School free-hand drawing classes have had a course in nature study, design, color, lettering, posters, interior decorating, costume design, and representation.

The mechanical drawing for the High School includes lettering, geometric construction, dimensioning, cabinet, isometric and machine drawing, orthographic projection and surface development.

Every month the teachers receive illustrated lesson plans of the work to be carried out during the month.

Last June a drawing exhibition of all the children's work throughout the public schools of Millbury was given in the High School.

I take this opportunity to thank the Superintendent and teachers for their co-operation.

Respectfully submitted,

LEONA T. BUTKIEWICZ.

Report of Supervisor of Physical Training

Mr. C. C. Ferguson,
Supt. of Schools,
Millbury, Mass.

Dear Mr. Ferguson:

I hereby submit my fourth annual report as Supervisor of Physical Education in the Millbury Schools.

Our program has been carried forward in much the same manner as in former years. We have endeavored to follow the modern trend of physical education by including in our program activities of every form.

The modern tendency in physical education is to instill in the child a love of play and out-door activities, through which he will develop mentally and morally as well as physically; mentally by attaining an alert, keen mind; morally, by learning what true sportsmanship is; physically, by acquiring and retaining a healthy body.

If the boys and girls of the public schools can be made realize the importance of using their leisure time for these healthful habits of recreation, then our physical education program will be successful.

Elementary: The larger schools are visited once every three weeks. An outline is left in each grade to be followed by the class-room teacher.

Junior High: A twenty-minute period once a week is required of the Junior High pupils. Out-door backboards for basketball are being installed. Balls have been purchased

by Miss Connor with money from a school fund. Intramural games are to be played.

High School: One forty-minute period a week is required of each High School student. Some formal work, games and dances are taught in this period. The class volleyball games were won by the class of 1931. Class basketball will be played previous to the varsity basketball season, which will start January 5th.

I wish to express my appreciation and thanks to you, Mr. Ferguson, the principals, and teachers for their cooperation with me in my work.

Respectfully submitted,

JANE E. SULLIVAN.

Report of Supervisor of Music

Mr. C. C. Ferguson,
Supt. of Schools,
Millbury, Mass.

Dear Mr. Ferguson:

From year to year, the work in music, from a point of presentation and technique, varies slightly, so that it seems needless to even mention that phase of the work, but, at this time I would like to state briefly a few general facts regarding the value of music.

The cultural value of music, which is of prime importance, is manifested in various ways. A genuine desire for music is aroused, which necessitates a cultivation of an adequate background of knowledge, in order to satisfy this desire.

This fundamental purpose being accomplished, the next consideration involves the all important factor of emphasizing the mission of music as a potent force in its power to soothe and heal, to inspire and stimulate. A means to this end is realized through the music reading which permits wide experience in song singing. Not only does careful selection in this matter prove an incentive to the growth of musical interest, but results in music appreciation, which leads to greater opportunities in the world of music.

It is universally recognized that music is a language, but often we do not interpret its meaning correctly. As a language it has its limitations, but as an art it is boundless.

To understand and appreciate any art requires the study of the fundamental principles of that art. There are certain principles which are basic in all arts. Architecture,

painting, sculpture, poetry, and music all reflect nationality, form, and expression. Each of the foregoing arts emphasizes one of these fundamental principles, but music embodies all of these principles; nationality, form, and an endless variety of expression, thereby becoming the greatest of all arts.

Adhering closely to these principles, the pupils are given the best representations of the great masters, songs of varying moods by noted composers, folk and traditional songs, songs of patriotism and devotion, and songs that will make the music period a stimulating experience and will result in a permanent appreciation of music.

The cultural, aesthetic, and ethical values in music seem to predominate, yet, there is absolutely no question as to the practicability of this art. Statistics show that more remunerations are received by workers in the field of music than in any of the other recognized arts.

It is regrettable that more time cannot be devoted to the study of music; yet, under the circumstances much praise is due to all who have so heartily co-operated with me in this work.

I wish to thank the superintendent, principals, and teachers for the aid they have given to make the work in music satisfactory.

Respectfully submitted,

MARY T. BERGIN.

Report of Supervisor of Sewing

Mr. C. C. Ferguson,
Supt. of Schools,
Millbury, Mass.

Dear Mr. Ferguson:

I hereby submit my annual report as Supervisor of Sewing in the Millbury Schools.

The aim of the sewing course is to give a thorough, practical knowledge of the subject, while teaching supplementary good habits of neatness, cleanliness and economy.

The sewing course this year is much the same as that of last year. The course has tried to limit its regular as well as supplementary work to the existing economic conditions.

The girls in the Junior High School are taught the fundamental stitches which they will need in future work. A few simple embroidery stitches, appropriate for the article, are taught for decorative purposes.

Later on they are taught the uses and care of the sewing machine. This work is taken up thoroughly and carefully so that those who go on with sewing will be prepared for the advanced work and those who do not go on, may have a practical knowledge of machine work.

Sewing in the High School is of a more advanced type. The cutting, fitting and assembling of garments is taken up from a commercial standpoint. A check at certain intervals is kept on previous work.

The habit of more frequent use of the iron while working has been established this year in both the Junior and Senior High Schools with satisfying results.

The Embroidery Club has been formed to further the interest of the girls outside of class hours. The business of the club is conducted formally by officers elected by the members. The purpose of the club is of a business and social nature. They learn to do fancy work of various types as well as to select and combine colors and materials. The social side of the club is manifested in parties during the holiday seasons and exhibitions of work done. At these meetings they are able to become better acquainted with girls outside of their own sewing classes and benefit by their ideas.

I wish to thank you, Mr. Ferguson, and all the teachers and parents who have co-operated with me so willingly.

Yours respectfully,

ROSE M. MASSEI.

Note:—All work is departmental. Each grade is divided into three divisions according to the aptitude of the pupils as shown by intelligence tests and by the teachers' rating. The divisions are subject to change whenever a pupil seems out of place in his particular division. An aftersession hour is given each day for pupils behind in their work or reported for misbehavior.

Note:—There are 35 forty-minute periods each week. The seventh grade pupils are required to study at home one-half hour daily, the home assignments to be in English and History. In the 8th grade the home work is the same except it is for an hour daily.
